

WARNING: Another Tsunami !!

Absolutely incredible!!

Did you see the recently released videos of the Tsunami in Japan?

The water begins to fill the streets, and then just does not stop!

such RAW POWER!

Non-stoppable raw-power!!

The waves just devour EVERYTHING in its path!

Imagine for a moment if this is what it looks like inside your brain when you act out...

the dopamine becomes non-stoppable!

destroying EVERYTHING in its path!

3 days of Insatiable energy ...seeking more and more of the same, enough to turn a Dr Jekyll into a

Mr Hyde-Away-Into-Isolation-Mode.

And meanwhile, the news inside your mind announces:

TODAY: 1 million brain cells were killed! Washed away in a furious tide!

Think about the Tsunami - where did it come from?

an Earthquake.. how many of us get all shaken up... at our wives, our boss, etc

and what happens?

where does it lead?

Nuclear Melt-down!

an explosion waiting to happen.

Do you feel like you are like a reactor - an explosion just waiting to happen??

Don't just sit there...you need to CHILL OUT!

learn to dissipate your nuclear reactions!

learn to prevent getting shaken up...

learn how to prevent the on-slaught of a Tsunami of destructive chemicals in your brain!

If you are not yet a part of a phone group, there are lots of great ones to choose from!

GYE has lined up an incredible team of leaders to help you!

what are you waiting for - another Tsunami? or a full nuclear reaction explosion??
