2B or Not 2 B,

I would like to elaborate but it's tisha bab after all & I'm trying to focus on why we are still in golus.

As much as work keeps you occupied & away from sin it might be wise to follow the law of the torah for a day and try to focus on the churban for a change this way we might finally end up getting out of golus which will solve all the smaller problems we have on a daily basis.

We have a problem connecting to the churban from 2000 yrs ago so we can just cry to Hashem about a

Our own churban we have to deal with more specifically on GYE its our Kedusha which destroys us.

Stop working for at least from morning to late after noon & Cry & Daven to Hashem to help us all get over the destruction of our Kedusha or any other problems we face in life that Hashem

should take us out of this golus once & for all. Amein!

E.L.

Reb Tomim,

I realized that I might of been to harsh but Tzadikel, we tend to forget the bigger picture some times & fucos on the smaller things.

All I'm trying to say is that we have this special day that we can show Hashem that we really want out of golus.

We really want to be close to our father in heaven.

We really want to break free from this struggle & addiction!

So why waste the day on the net?!

Gevald! You are much bigger then that.

The halacha requires not to work so we can have in mind what we lost, so that we can focus on our own curban!

So that we can get the Big Yeshuah!

One who cried for the shechina while it was in golus will be zoche to see it B'Sifarto.

Let it be soon

With all the love in the world

E.L.
