

ben nidadh

---

I apologize, because I don't think that this is the appropriate board, but I couldn't find one that matched it better. I guess this is an unusual question.

I'm reading the book "After the Return" and I learned about the status of being a "ben nidadh." Previously I didn't know of this. I believe that I am a ben nidadh (not completely sure, though). Does this have anything to do with my lust for porn? Is it possible that my status as a ben nidadh is the cause of my problem?
