---

Today's email gave us the challenge to work on inyanie kedusha iz"n the tzaddik hy'd

(I am too shook up even to write his name)

I have a question for our chareidisher tzibbur

Why do frum yidden own an i-phone?

It is a kli mashchis it's ONLY made for entertainment purposes. No matter how many apps you buy and think it's for work. That is a bold face lie. All it is, is a small pocket tv, if not worse.

So we need to look at ourselves. Would we come to shul on shabbos with a breifcase? Would we eat McDonalds? How does a Jew have the azus to ask a freind in shul if he saw a such and such clip?

How?? We have become collectively desensitized.

Lets re-awaken our yiddish conciousness. I-phone = treyfa

lets not be embarrsed to tell chaveirm

i-phone=treyfa

when the rav at the levaya of the tzaddik hy"d spoke about technology, what did he mean?

I-phone

it is time for cheshbon hanefesh .a yid doesnt touch treyfa

may all yiddin be blessed
