dont look at the huuuuuuge challenge tike it in stride

Hey it seems like the first few days always go like a breeze that I forget I even have this problem, than suddenly a week goes by and I lose it. It's getting closer to the end of the week and I'm getting nervous this may happen again.

and thi getting hervods this may happen again.
It's that one day when I need to exercise my control that I am so use to feeling that i got it under control that I lose it
Does that make any sense?

yes mendy it makes alot of sense
its like swimming 3 laps but 4 laps is wayyyyy to hard
althugh it's only one more lap
so crunch it down
say i will go one more day
i used to keep a journal of 15 minute increments

Or are you sneaking little drinks here and there, until you finally just wander into the bar?
