

I'm about to FALL!!

Posted by jerusalemsexaddict - 13 Aug 2009 21:26

Allright so as everyone here knows,we on the site often here desperate "call-outs" from people who feel that they are about to fall any minute.Sometimes the emergency units don't have enough time to respond to put out the fire,or are simply unaware of the emergency.

In any case,I am declaring this guardyoueyes's official 911 switchboard.

If there's an emergency of any sort,even a chashash,post here IMMEDIATELY!And well come to your rescue as soon as possible,iy'h.

You can post your emergency here,or give us a link to your thread where you can speak about your emergency.And our volunteers will respond as soon as possible to your calls.

As some people might feel uncomfortable reading women's struggles,I am putting one in the women's section,and whoever feels safe creeping over to the other side of the mechitzah is welcome to go in thereand help.

Wishing everyone the best-Uri

Buddy, you better get through this one. Recently, quite a few board members didn't make it. We're not gonna make the kiddush H-shem playoffs in shomayim if someone doesn't pick us up soon!!

(sorry for being so arrogant

please help me keep my focus . i am n the middle of a big nisayon now and losing my direction
and resolve.

Tell us what you are thinking? What is stressing you out? Do you want to fall? Where do you
want to be in a weeks time? Think about this slowly. Don't get yourself worked up. We hurt
ourselves by getting worked up.

\

i have an oppurtunity to fall that i don't normally have and yes i want to fall very much ! no i don't

but YES I DO!

OK.

I have got to say, that although I usually am not a serial "poster" on the forum, what just happened really made me smile - that's like 5 people all posting in real time. Really cool. Saved

I was recently discussing with my wife about infertility problems and how sad it is for some people that we know etc. She mentioned a certain fact to me that gave me a shiver right through my spine. I want to tell you about it in case this is something that may help overcome the problem of masturbation.

She told me that when a frum couple have to begin infertility treatment, before even entertaining the possibility that the husband may be the problem, and doing anything about it, the first thing that must be done is to make certain that the wife is not the problem. This can take months and months and months - maybe longer. Why is this? Wont checking out the husband at the same time make the chances of having a child improve? The answer is...Yes it will. But since this will

require the husband to produce a sample of his semen, it cannot be done until we know for a fact that his wife is not the source of them being childless. So sever it is, that even though they may have long been able to hold and cradle a child of their own...to wake up to the sound of a crying baby.... - it cannot override the issue of wasting sperm even that is considered wasting.

Now think about what we are doing.....
