

sex pills

Can anyone tell me about the halachic status of sex/energy pills?

I see them for sale in the gas stations. Can i buy them? If the capsule is gelatin, I can use kosher vegetable ones and put the powder in it.

I ejaculate too quick and I want it last.

Do you have a lust problem, or not, chabibi? It's OK not to be screwed up and still post on this forum - but you can share: is sex in the marriage or out of it, lust images/pornography, or other things related to lusting behaviors driving you crazy, or not?

If yes, yes, if not, then no. What is it?

That comes first, even before your penis or your orgasms.

So?
