

Moishe Online, Song and Lyrics. How would you change them?

Posted by KiviYVY - 18 Jan 2012 16:06

I found [the following song](#) (link to the \$.99 download on Amazon) today. It really captures the struggle we go through, but the solution the composer presents is unfortunately not the solution, not the end of the story. I don't blame the composer. I used to think this way too.

Any thoughts on how to change the lyrics?

Moishy Online

You've got mail!

Caught in the web of the pentium spider

The sky outside grows lighter and lighter

Clicking away trancelike in a dream

Moishy online by the internet screen

Surfing the waves of America online

Chatting with temptation and wasting his time

Clicking away determined to find

At tumah.com he's losing his mind...

Get me out of here

Download my soul

I've gotta get out of here

I'm losing control

Download my soul....

And glued to his mouse he's found another site

Oh what a shame he's ruining his life

If there's nothing to be found there's always a CD

Everything he sees becomes a memory

Searching with the engines, Yetzer hara at the wheel

Trying to get up but is trapped as if by steel

Praying in his heart help me please

someone get me out set me free

And all the lights went out, the electricity had failed

But only for a moment he was finally on bail

This was his last chance the lights would go on soon

So he picked up his computer and he walked across the room

He took it to the window and let the whole thing go

Crashing in the darkness on the pavement far below...

Yes I'm out of here

Downloaded my soul

I've gotten out of here

I'm in control

Yes I am out of here

Downloaded my soul

I've gotten out of here

I'm in control

Yes I'm am out of here

Downloaded my soul...

I'm in control..

Getting out...

Downloaded my soul

I'm in control...

Download my soul...

One last thing.

Perhaps the lyrics are on target, if you see the solution the composer offers as a continuation of the struggle and the song ending without any solution. Maybe the song is just an expression of the unresolved struggle. I honestly don't think that was the composers intention, but art is always up for alternative interpretations!
