

Help Us Help Others

Dear Yidden.

The more people know about www.guardureyes.com, the more yidden can be helped. A little light dispels a lot of darkness.

We have no money for advertising and it's a big shame. So many yidden out there are trapped and have no idea that there is help and hope and so many good tools to help them break free! Every time I make an appeal by e-mail, we get maybe two or three donations of \$18, sometimes a little more. That doesn't get anywhere with advertising.

Help us spread the word of hope, teshuvah and Kavod Shamayim!

We have tax deductible- FULLY ANONYMOUS donating options. Help us spread the word! We guarantee that whatever you will donate will go only for advertising, nothing goes to our pockets. Write to eyes.guard@gmail.com and we'll tell you how to do it anonymously and tax deductible.

And **you** tell us where you want an ad, and we'll put it in. Hundreds of Yidden can be helped through your donation. Imagine the Zechus you will have! All the money spent for bad things, and the time wasted - it can all be uplifted by using your past falls to help others now!

Thank you for the great messages! I am starting to realize that my past behavior is not ONLY the yetzah harah but it is an illness. This does not excuse my actions ,but it gives me a strong sense of hope and the knowledge that the steps I am taking will work. Today is day 2 and I am both encouraged but scared. I know I need to come clean with this, but the thought of that is very scary. My wife has no idea, but I know that her nehsama knows and feels it .When the time is

right I am sure that Hashem will take care of me and guide me to tearing down all the barriers that I have put between me and my wife. All I know is that whenever I am in a positive frame of mind I see miracles happen within my family and the level of shalom bias increases. This is my driving force to keeping clean. I just know that deep down my life should be so much better in all areas. So far I have lived a truly blessed life, B"H! So I keep thinking that with the 12 steps who knows what incredible thing wait for me and my family. I guess I came here and went to a Dr. because I want my life back now!!!!
