Thank you Hashem for moving my desk at work from a hidden and enclosed to area to an open area. Now, i cannot look at P. and act upon it. At first I was so upset, I lost all my privacy, but this was the best thing that could happen.

I still have strong desires, it's like the Y"H is pushing even harder. Like a last call. I hope to Hashem Yisbarach that I will have the self control needed to fight the Y"H once and for all and WIN.

Thank you Hashem!

Very nice, It sounds like you are on the good track. I always carry a writing pad with me to write down every nes I can see into my everyday life.

Let us all keep on seing Hashem's hand in all He does for us that we couldn't have done by ourselves !
