"?? ??? ??? ??????"

Just joking, but even with the best therapist we must always remember that our mental health also is from Hashem.

Right?

Hi IHope and welcome aboard.

Without breaching your anonymity, it would help if you could provide some general information about where you are located, and what issues you seek therapy for. Maybe someone would have specific information that you could use.

Hatzlacha!

Gevura!

www.guardyoureyes.com/therapists

They have a list of therapists available, but of course a personal recommendation would probably be better. I dont know maybe this can help though.
