

Email buddy needed

Posted by neshamatehora - 11 Jan 2015 20:42

Shalom aleichem,

I downloaded a k9 filter a little while ago, which was connected to my email - mostly just as a reminder so that if I did anything stupid I had to go through a few steps first.

But it's just not safe for me to be able to click "forgot password" and bypass the filter so easily. Is there someone else whose email I can connect the filter to? That way, I won't be able to access it - but if for some reason it's blocking something important I can contact you and get a temporary password.

Thank you!

Amen!

T'was confirmed.

Can I ask you a question here regardin' your progress, or would you rather thru email?
