

android filter

Posted by gye1962 - 06 Apr 2015 17:44

---

Hi

i recently put filters on every device i own , but i cant seem to find a good filter for the android s5 mini.

if anybody know of any good ones (k9 dosent work) please let me know

beatzlacha

is net nanny any good?

qustodio isnt working ,, neither k9 nor netnanny or any other countless i tried.

amybe i should just switch to iphone which does have a strong filter

Try norton family safety. It works. You'll need someone else to set it up and they can see your browsing history too.

qustodio does work

perhaps you need professional.

Email Skep for instructions.
