

Need Access to Chat Room

Anyone know of how to get permission to use the chat room if they don't have an American number, like me? I didn't use this site for quite a while and I would like to start all over but I need real-time encouragement and supervision. Anybody from Admin would like to help?

if you are referrin' to GYE on your phone (as you stated), there is an issue that they are tryin' to sort out.
