

Filtered Device Calendar - see 1st post

Posted by Markz - 19 Aug 2015 20:00

In this group, logging or continuing overtime on any non foolproof **FILTERED** device (i.e. that has any possible access to inappropriate websites / apps) late at night is not practiced.

Here is where we log dates and times only

- **How long you want to join for**
- **Your 'good night' time, and 'good morning' reactivation time**
- **Periodically update your calendar** if you want to extend, quit / take a break, or are jumping back on.

To review the rules, for questions, and to comment, please go to the Discussion Blog [HERE](#)

Summary

- Choose 10, 10:30 or 11pm.
- If you decide to login or continue after your 'goodnight time' you must first write a valid reason / excuse on the [Discussion Blog](#) why you feel exception should be granted to logon.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.
- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post all comments regarding the LOG calendar, in the [Discussion Blog](#)

Maybe try it for 7 days...

I assumed it to be so, but based on the rules that existed 5 min ago you were correct and are patur midinei shamayim too

I changed the criteria on pg 1 to include continuing after the logoff time.

SG and Yesod you agree too?

Not sure if I understand. According to the old rules, one cannot log on past his bedtime, but if one is already logged in he may continue? That sounds like a pretty good loophole to close up.
)Just want to reiterate, that if one has a legit reason for staying online a little late (like paying your bill that's due) he just needs to post it and ask the panel (who's that?) if it's ok. If it's legit then the oilem will say that it's fine, but at least someone knows that you're online and will ask you about it in the morning.

What's day and what's night? Plenty of people take naps by day. I would like to make my new commitment during the daytime plus aother quirk. My internet is officially filtered, but there is still some harmful content that trickles through. This typically happens when I'm in a Wi-Fi zone. So, I propose to make my commitment as follows - and let me know if this is too different from the original intention of this calendar.

DURATION: until r'c iyar

HOURS: all day whenever in a wi-fi zone.

WHAT: five minute limit with a half hour cool off in between.

EXEPTIONS: whenever my wife is likely to walk into the room without warning.

EXEPTIONS#2: whenever I feel like it.

Stillgoing I encourage original out of the box thinking, and suggest you start your a new "goodday device calendar" and PA will be happy to give you hmmmms when you need approvals. What do you think about this brilliant idea

I think PA might give me more then a hmmm right now, more like a hymm, and not a happy on either. We might need grandmark to make shalom (speaking of which, where Is yesod these days). Mark, i can't do that. It wouldn't work for me. I need to join a program not create one. Can we have a vote?
