

Filtered Device - Blog. See 1st post

Posted by Markz - 19 Aug 2015 20:09

Here's the plan

In this group, logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced.

- Choose 10, 10:30 or 11pm. Any important use can usually be done after 5am when we are in a clearer frame of mind.
- Any device that is 100% foolproof internet safe e.g. with white lists to exclusive kosher sites (unlike regular filters) is not a problem.

How To Join The Group?

Please go to the [LOG Calendar](#) found on this link [HERE](#), and post only:

- **How long you want to join for**
- **Your 'good night' time**
- **Periodically update your calendar** if you want to extend, quit / take a break (cos the knas's are getting too expensive), or are jumping back on.

Write a reason on this Post

If you decide to login after your 'goodnight time' you must first write a valid reason / excuse here on this blog why you feel exception should be granted to logon.

- Only extraordinary or emergency situations can be approved - no working overtime / browsing / shopping etc.
- If your friend / wife is with you, that can be a valid situation.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.

And if I forget?

- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post ALL other questions and comments regarding the LOG calendar, in this Blog post.

Maybe try it for 7 days...

KOT!!

SG thanks for keeping me in the loop

20 min for me can take 40 min

As the night draws out, my HALT increases, and I better log off work before I do something stupid.

I have your email, so if needed - you'll hear a buzz

- came home late last night after leyl shishi learning, chatted with the kids

- totally absent-minded started Computer (after 11pm), read emails, opened browser, entered www.gua.. --- and --- realized that its "ossur time" and that this amusement was an expensive

- shut down PC
- paid 15\$ (today)
- got a big "we thank you for your donation, for your support, and for your partnership... "

although it was just my knass

So be it...

Good Shabbos everyone

Balabos

Thanks balabos

Halevai transgressing this calendar should be our only sin

I finished work that weds night at 1:15am Then spent a few short minutes online on gye

Yes I did notify here, but still feel the right thing to pay my 15 due to gye that I appreciate, as working late isn't really a good enough excuse...

I have to cough up 60 for similar infractions, absent mindedly going on for a few minutes the last couple weeks.

Oh well,

none loses

none loses

Maybe we should give the money to the IRS so it will hurt more - or better yet, to me :-)
Mark, i'm a little confused (nothing new about that) there are two good night threads with similar names that seem to be used interchangeably. i think i've been missing posts. Is there a difference between the two?

Re: Unfiltered Device - G'Night Blog. see 1st post
Posted by markz - 10 Apr 2016 15:08

The one is for "schedule" the other is to chat about it, as mentioned in the begining of both threads

Like the 90 day chart, and separate 90 day chat

If I had a choice between the "schedule" and the 90 days, it would be a hard call, cos this

calendar may be doing more for me...

Thanks and KOT

Last night logged on after good night time, as one of my teens needed my support, and I couldn't avoid it or refuse 'because Markz' calendar doesn't let right now...'

After all, I was not alone, and in the minute the job was done the computer was shut down immediately.

I'm fine, right?

Balabos
