

Filtered Device - Blog. See 1st post

Posted by Markz - 19 Aug 2015 20:09

Here's the plan

In this group, logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced.

- Choose 10, 10:30 or 11pm. Any important use can usually be done after 5am when we are in a clearer frame of mind.
- Any device that is 100% foolproof internet safe e.g. with white lists to exclusive kosher sites (unlike regular filters) is not a problem.

How To Join The Group?

Please go to the [LOG Calendar](#) found on this link [HERE](#), and post only:

- **How long you want to join for**
- **Your 'good night' time**
- **Periodically update your calendar** if you want to extend, quit / take a break (cos the knas's are getting too expensive), or are jumping back on.

Write a reason on this Post

If you decide to login after your 'goodnight time' you must first write a valid reason / excuse here on this blog why you feel exception should be granted to logon.

- Only extraordinary or emergency situations can be approved - no working overtime / browsing / shopping etc.
- If your friend / wife is with you, that can be a valid situation.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.

And if I forget?

- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post ALL other questions and comments regarding the LOG calendar, in this Blog post.

Maybe try it for 7 days...

KOT!!

I have a problem, fell asleep after mariv for 3 hrs after putting my kids to sleep, got up at 11 and had dinner. not the slightest bit tired noe and its 1 am

Hey Yesod this isn't a nanny service.

Perhaps you misunderstood what we're trying to do here

You can go to sleep as late as you want or not at all

The issue is not to go onto devices that possibly have inappropriate stuff as explained in the beginning of this post

Are you saying you awoke after 3hr and logged onto devices although it was after your time of 1130?

In my opinion that's an exceptional scenario that doesn't require a knas. Guys what do you say?

Sorry. My bad,

I didn't read carefully when i first joined, i was under the impression that it was a commitment to actually go to sleep:side:

At any rate, i need to renew so I'll be posting on the calendar.

I accept whatever verdict regarding this last week.

Exceptional circumstances are not taxable.

You misunderstood the rules of the game so no knas's to you my brother. Seems I'm the moderator on this Blog until other guys or someone with a bigger truck than me steps in. And Yesod you'll be my moderator so I'm in good hands.

I also need your help this coming Sunday night late home arrival. I'll PM you if I start sliding if you're reachable then.

Shabat Shalom

Calling - Chazak1234 or Yesod - anyone there?

I need some moderation

I was on an unprotected device after my 10pm device shutdown time, till 1030.

I'm a sinner - I was supposed to report here before logging on - shucks

Ok why did I go on? Cos one of my kids was driving me nuts they want a internet device...

So I spent 1/2 hr letting them see the home page video which they couldn't exactly understand...
And also let them hear the iPhone song which they say was cool AND asked me to download it
for them (not the detonation app), so I'm plus one now with my kid. But basically I wasn't online
by myself in a dark cellar...

What's the verdict with knas?

You weren't on alone so you're of the hook.

You got a warning though.

If your kid don't understand that's a good sign, good move though
