

Filtered Device - Blog. See 1st post

Posted by Markz - 19 Aug 2015 20:09

Here's the plan

In this group, logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced.

- Choose 10, 10:30 or 11pm. Any important use can usually be done after 5am when we are in a clearer frame of mind.
- Any device that is 100% foolproof internet safe e.g. with white lists to exclusive kosher sites (unlike regular filters) is not a problem.

How To Join The Group?

Please go to the [LOG Calendar](#) found on this link [HERE](#), and post only:

- **How long you want to join for**
- **Your 'good night' time**
- **Periodically update your calendar** if you want to extend, quit / take a break (cos the knas's are getting too expensive), or are jumping back on.

Write a reason on this Post

If you decide to login after your 'goodnight time' you must first write a valid reason / excuse here on this blog why you feel exception should be granted to logon.

- Only extraordinary or emergency situations can be approved - no working overtime / browsing / shopping etc.
- If your friend / wife is with you, that can be a valid situation.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.

And if I forget?

- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post ALL other questions and comments regarding the LOG calendar, in this Blog post.

Maybe try it for 7 days...

KOT!!

The Free Tubing Game

[Pidaini wrote:](#)

I am ly'H, Bli Neder, starting a new count. A count for days free of playing online games. It takes away from my life, or actually, it takes away my life!!! It sounds a little funny, but I think I may be addicted to it.

So it's the same rule,

One moment at a time, meaning, I have plenty of things to do (I even wrote myself a note of things so that when I think "why not, what else should i do?" I should find things easily) I just have to make the right choice to do what is important and lasting.

First Day

??? ?' ????? ??????

?' ????? ?? ????"?

SEQUEL

Hey y'all!!

It's been a great week, BH. I was looking forward all week to the O.Y.N.C meeting, which ended up being an O.O.Y.N.K meeting.

as for the count, I am BH 3 days clean of online games!!! R' gaurd, can we get a second chart for that?

and since a few guys have told me that they were having this problem as well, I am cordially

Just to write the changes I have already seen, 1) I have much more time to do things with more quality, whatever it is (posting, learning, etc.) 2)I have been spending more time with my wife and daughter 3)even when I am doing other things, I listen to my wife with much more attention than when I was being interrupted (how dare she!!) from the games.

A short while later

[Pidaini wrote:](#)

so that's the good news, on the other chart....well...it's been all right, just feeling a bit down, and inviting everyone to join me in that count, we can make it an accountability group tired.

but hey, besides for that life is GREAT!!

so I would just like to scream

THANK YOU HASHEM!!!!!!

So for all the crazy guys on the good night calendar, let us put our hearts and minds together (if we happen to be sane), and contemplate our next crazy adventure to win the challenge of the "Free Tubing Game"

Come one come all and join

Commit for one week or ten, to freedom from youtube, yup, we can do it

Send the tube down the net, before you tube too

Please post your ideas, and after we have a meeting of the mind, the first post will be updated and the thread ready to rock

Why are you all running around with unfiltered devices?

I must clarify - this blog is for devices that are filtered, but not with foolproof filters, and I have yet to find one

My iPhone that I'm posting now from, is totally kosher. No filtering, just some whitelisted websites and a few nice clean apps (eg guitar)

Fell asleep early, woke up at 3 am couldn't fall. Back asleep.

Was bored and couldn't think of anything to do. I confess i decided for the nominal fee of 15 dollars to have some fun.

A little bit of gye

And then.

Trump

Juggling

Hay baling

New weapons

Close call stories

Dead country singers

3d drawings

And other life essentials.

Sorry.

I don't mean to detract any income from gye Gd forbid, but IMHO the good nite calendar expires daily at 3am.

Agreed?

I really don't want to interrupt the discussion of dyslexic readers, but this is sounding more and more like our government. Why must all important Things be watered down. This good night calendar was a great idea. but since this liberal agenda was added beginning with the rule that gye is ok comma next it will allow us to only peek at the bad sites, some even want it to be completely allowed after 3 a.m. :laughing:I really believe that if we have a good thing going there is no need to change it. Let's hereby vote 2 reenact the original constitution of the good night calendar. Citizens have a right to leave this happy world, but if they do choose to remain Within These borders everyone should be held by the same happy Standards. Allowing the gye an exception is the first slip to a nice bingeing slide. I know Mark brought it up for a vote a while ago and the calendars only other active member went along, so I didn't say anything then, but it really seems to me to be a not- such- a- great- idea.

Now, on with the party

I agree with the demonstrator and think gye should be shutdown too after your gnite time, I tested it once last week, and almost slipped...

But what I wrote about the "good morning" time after 3am holds water.

Is the "good night" time indefinite?

When is it over?

My understanding of the human mind is that Tiredness (one component of halT) can be a recipe for acting out as I often experienced, which after a few hours of sleep can often naturally defuse

Maybe there's other factors??

So we should have a vote here - what time does the "night" end for this thread's purpose?
