Here's the [original one](#).

Here's the [new one](#) with a beard.

Here's the [new one](#) with a beard *and payos*.

And for the avatar, which one do you like best? **PLEASE VOTE ABOVE**

It's between these three:

1. [Plain](#)
2. [With beard](#)
3. [With beard & Payos](#)

Do you think that someone who sees that the admin uses a beard and payos in his avatar will
for them?

Rabboisai, think about this picture. A guard is supposed to be guarding, right? Well, how can
someone guard a palace if his eyes are covered?

That's how HASHEM'S PALACE is guarded BEST!

When we guard our very own eyes, we are protecting and guarding the palace of Hashem
inside of us, for the eyes are the window's to our souls - ***chelek eloka mi'mal***.

P.S. 1000 GYE points for anyone who makes this picture their DESKTOP... :D If you don't want people to see the name of the website, you can use [this picture](#) as your desktop instead (but)
