

k-9

Posted by Lechayim - 06 Nov 2009 00:47

I have put in a very hard password in K9 and and a email address which i don't have the password anymore.Does anyone have any idea what to do with k-9 since it is an hour delayed cause we changed the clock in america.I can't open it up at all!! Any ideas would be appreciated.

I don't understand the question.

Did you follow the instructions on [this page](#)?
