

MP3 shiurim

Posted by stevec613 - 15 Nov 2009 16:56

I was wondering if there was or could be a place where we could post links to shiurim that could either be listened to on-line or that could be downloaded to a Ipod or other MP3 player. It would be great to have one location with shiurim on items of interest for us GYE members.

I think it would be great if any time a GYE member is either in danger of slipping or falling if they could access these shiurim. There is no doubt that listening to a shuir on our inyanim will certainly help when in danger of a slip or a fall. A thread that is easily accessible will be a great tool to add to the already existing tools.

Steve, you're a genius. We have exactly such a place!
