

I cant believe I fell

Posted by Philwantstoquit - 18 Sep 2016 18:51

It's been probably around....4-6 months...way more than 90 days! Since I've looked or fell...and it happened....if I had a gun, I might shoot my self in the foot.

That's painful!

But, If you shoot yourself in the foot you won't be able to get back up

Look at this, brother

Do you see a pattern?

Once you're shootin', why don't you.....? oh, forget it.

b'hatzlachah to you.

Head up!

As for my experience, I "fell", whatever that word is supposed to mean, the day before I reached 5 months. That was March 18th 2015. With the help of Hashem and the program of SA, I've been sober since. I still can't believe it when I don't "fall".
