

Pidaini & Mr Emunah's P & M Mincha Group

Posted by cordnoy - 26 Mar 2017 03:28

Inspired by two of yesteryear's greats, I'd like to initiate a new nonexclusive group.

First, some background:

Pidaini initiated a KRIS"H group for shema al haMitah.

Mr. Emunah was a countin' to the P and the M (he is in the thousands now B"H).

On Friday, there was an in-depth conversation on the Phone from fellows on both sides of the Pond regardin' connections to God, and it spilled out that some (includin' I) are not the best Minchah go'ers, to say the least. Therefore, i figured that what better way is there than to start a Mini group to the P and to the M for all those who wish to be Mechazek in Minchah services. Perhaps we/I can build a connection in this way; and if not, it Probably can't hurt.

The rules for this group are:

There ain't no rules!

Suggestions:

1. Any word beginnin' with a P or an M should be capitalized.
2. If you Post on this thread, you should end it by indicatin' your streak to the P(rivate Minchah) and to the M(inyan Minchah).

2 to the P and 2 to the M!

early mincha makes for good shalom bayis. It's an option, but if I miss it it's probably the wife's fault

I may get into trouble for saying this, but that blame thread is having negative vibes and should be locked for teens or complainers only. And the "thank you" button should show not there either

5P and 5M

I also disagree because its actually brought up a lot of interesting discussions.

But for teens and complainers and People who read into things literally, Maybe there should be a disclaimer there (and in all of troubles posts) explaining that when Trouble says white he Means black, and when he says hot he Means cold.

I don't agree (obviously) with the black/white, hot/cold analogy. I will concede, however, that there is some meaning behind the surface; scratch a little (not that way, you pervert!).

14 to the P and 14 to the M!

Nice number.

14 squared = 196

????? - our secret sins. Hmmm...

But also ?? ??, which we are splittin' now.

Total of the group.... x to the P and x to the M.

Multiplied by the amount of fellows in this group = ????? ????? ???.

Somehow, I hope this streak ends before Pesach, for otherwise, I might need to Pray Mincha durin' chol hamoed.

Overall M 9/10

This week

5/5

I made an emphasis to make it because of the sailor / tailor of his thread, so kudos to him
