Sorry if this is covered elsewhere.

I love on the Oorah free CD that was doing the round last year Eitan Katz 'Sheva'. I've seen the passuk 'sheva yipol tzaddik discussed in one of the handouts. This song also has an English line 'if you should transgress, don't get yourself depressed, just get up off the floor, that's what Hashem requests'.

I also heard a new song today - 'Hashem Loves You' by Sheves Chaverim, a new CD. A real uplifting song that I thought I would share

In my first week clean in my current streak, I must have listened to Kah Echsof by LChayim Tisch like 20-30 times a day.

Not really sure what was so comforting, but what works works.
