Why don't you apply through your home page? There is a link to find a partner or sponsor, which supplies you with what you need.

Good luck on your journey,

I got my sponsor thru SA, not gye, so it might be a bit harder. But instead of waiting for sponsors to volunteer, how about doing some research here and reaching out to someone whose story and recovery resonates with you? Ask them if they're available and willing to sponsor you. And if doesn't work out, you can always switch.

Good luck!
