

Filter Trouble

Hi all,

I've got some trouble with my filter. I mean, it works fine, but I can easily bypass it. I purposely don't want to go into the how's or any specific detail, in case I accidentally make it easier for someone to fall, cv. (Although I'm not talking very tech savy stuff, its really kind of simple and basic internet knowledge.)

Anyway, if anyone thinks they may be able to help, can you please send me a private chat or something? I've contacted my local TAG but not received an answer yet.

Thanks, gemar chasima tova.

There's a wonderful yid over here who goes by the name Lionking , he is an I.T. Expert , very knowledgeable about filters , & always happy to help someone out .

From personal experience if you are looking for a trigger no filter can stop you. A filter just helps you have a extra few seconds so that you ca actually fight your urge but ultimately it's up to you( it took me many years to learn this)...

Thanks I-man for the free advertising.

Sorry ITK for the late response, I'm B"H super busy these days. If it is still relevant, send me an email or pm and I will try to help Besras Hashem.

I agree to icandothis, filters are only partially helpful. I would never be successful with filters. You need siyata dshmaya and work on life changes to be able to withstand challenges.

Hatzlocha Rabba!
