

**A NEW BRAINSTORM FOR GYE**

Well guy's i just had a brainstorm to help gye's revolution. Let me know what you guys think about this. There are sheets that get distributed every shabbos, some only in israel and some even worldwide. If gye would make a sheet every week on these subjects. Of course it's gotta be on a low profile. For example for those that know a sheet that's distributed once a month in israel called 'ikvisa dimeshicha' about these topics. It seemed to have alot of success. I didn't always enjoy them because sometimes they were far to extreme. If a sheet like that would be produced weekly, presented in a way enjoyable for young and old to read. Stories about the heroes of the previous generations , modern day stories and mesholim. Something a bit like the shemiras einayim emails presented in a short and sweet fashion. There's a sheet called 'matamim le'shulchan shabbos'. It's become popular worldwide. Of course it's not gonna be the same as that but in a presentable fashion to the public and easy to read. That will be the beginning of the worldwide revolution of gye. Of course it will be mentioned the well known email adress '[eyes.guard@gmail.com](mailto:eyes.guard@gmail.com)' for comment's suggestions and questions and support. This will help many more people catch on to gye without making too much noise. What do you guys think about this? (written at 2:40am, i couldn't sleep till i'd written it)

Although it seems like a great idea, considering how well the community has been acknowledging this issue so far... I have a feeling we will be just printing shaimos. What could be done, is do it for a few weeks... without mentioning anything drastic.... then one week hit em hard. That way you can at least start circulation...

Well become holy, you didn't read my words. I wrote that we'd keep it on a very low profile, more like the 'ikvisa dimeshicha' in israel, that's been well accepted. Hitting em hard later on, is a different issue. Bards ur sponsoring issue no. 2?

All those little pamphlets and papers you see, will end up in shaimos a week later. What we care about is who will see them before they get there.

Are you saying people won't even read it if they know what it's about?

I think I'm more worried about obtaining circulation then whether people will read it... truth is, they probably WILL read it... its scandalous in a sense and people are always looking for something juicy....
