

Lessons from Russia vs Ukraine war
Posted by DavidT - 27 Feb 2022 19:36

The Russian army is much stronger than the Ukrainian army, when they started the war they thought that in a few days Ukraine would be defeated, but they didn't succeed. Even though they are delivering heavy blows to the Ukrainians, as long as they are still fighting back that shows that Russia didn't win over them. Just the opposite, that rises the Ukrainian pride!

The *Yetzer Horah* is a lot stronger than us, he is a angel and we are blood and flesh, and when he started the war with us he thought that in a few days the war will be over! But he didn't succeed, and even though he might be winning some battles, as long we are still fighting back that shows that he didn't win, and just the opposite that rises our pride and with Hashem's help we will win the war!

I thought of another lesson. Ukraine has released many prisoners from jail to join in the war against the Russians. In a time of war even people that might have been considered criminals can now be a hero.

We are now in a time of war against the koach hatumah and yetzer hara! (and even the ones that fell badly are NOT criminals)

So yes! each and every one of us can now be a great hero!
