

Telegram

Posted by future paltiel - 23 Jul 2023 14:23

Greetings Rabbosai,

I wanted to know if some of you use Telegram messenger, if it is safe to use and how it is compatible with your filter.

A gut voch to all!

It is NOT safe to use without a strong filter, (if at all possible).

Greetings Rabbosai,

I wanted to know if some of you use Telegram messenger, if it is safe to use and how it is compatible with your filter.

A gut voch to all!

In my experience Telegram is not a safe app at all

It's terrible.

I fell from it.

The biggest problem (besides social media etc) is that you can search for any channel. So you can find anything. From innocuous idiocy to the worst of the worst. I did all, in the short time I was on it (I went on for a "legitimate" reason). Run!!!!

There is a version of Telegram that supposedly has no access to anything other than the chats you have been added to. That version is supposed to be similar to WhatsApp.

I seem to recall stories of people being added to inappropriate chats on whatsapp by malicious actors. I would assume the same is possible to Telegram.

You can check out Telochat. It is a special, kosher platform of telegram.

Don't try telegram, not sure how to say this better, but it is just asking for trouble..
