Are there people struggling with the desire to be pierced or tattooed. If so how do people deal with this struggle?

Yes and there's no option if you want to be a frum Jew.

I hate to resurrect such a contentious thread

However I need to know is this the only answer to the original question posted here?

Mind you the original question was how to deal with these feelings and not whether it is assur or muttar or the haskafa behind not doing it.
