

Whitelist website

Posted by Medly1234 - 24 Oct 2023 13:14

Hey,does anyone have a list of whitelisted websites?

YOu create a whitelist when you install the filter.

Of course it wont let you add any questionable sites. But you can make it as strict as you want.

I'm aware but I was wondering if anyone has a list of kosher websites compiled that I can base mine off of.

The filtering company probably has one.
