

Tesla

Posted by eerie - 12 Dec 2023 20:47

---

A friend shared. He has been driving a Tesla for a while. To my understanding, the filtering option is very shvach. If you don't get premium, so you don't have internet service, you also don't have most features. And premium is a few dollars. And even if you don't have premium, you can connect to wifi. So that leaves every Tesla with unfiltered internet.

So, my friend says he saw himself slipping a few times on his Tesla's internet. So he sold it.

????? ??? ?????? is not only history

We should line up to get brachois. And sell our Teslas

I am not sure if it's kedai to write the rest of the story.

When we spoke this friend was kicking himself hard, because he had an offer to sell his Tesla at a profit a little while ago, after he slipped once. But he didn't sell. And then a few months later, he decided that he had to get rid of it, but now he would sell it at a loss. Regardless, he was intent on selling. And then a friend told him of a place that would pay better, and he ended up making money, BH

Why am I not sure if it should be written? On the one hand it is chizuk for us when we see Hashem takes care of those who do His will. On the other hand, some people tend to get caught up in the hashgacha pratis part, forgetting about the mesiras nefesh, the hard work, the gadlus of choosing the correct but hard choice. And that's the main part of our story.

WE too can be great! When we'll choose the things that we know are right in spite of the fact that they are hard.

And there are also people that sell it and its at a loss specifically at the time they sell it. Their

reward is also great, no?

no filter gosh!

till now at least we were protected while driving but with tesla,

you can drive on autopilot doing p & m

probably will get pulled over for DUI

hashem help fast!

i need filter option

One of the special people here has told me that this story, that this guy sold his Tesla to stay strong, has inspired to get a new phone that does not present him with as many tests, in spite of the fact that the new phone is not as good as the old one.

Hashem, what special children you have!!!

TBH i masterbated while driving years ago before autopilot was a hava aminah

if there is a will there is a way.
