Bli neded, if I have time today, I will try to make a few of my divrei torah....estheticy pleasing, fully worded, and edited to fully bring-out their points.

And I would like to add a few "exerpts" to the emails. before I loose my internet connection (this weekend?). I really should give this place a formal 'see you later' before i dissapear off theses threads.

too much work, too much thought process involved, and too much typing, but KUTGW

and a plastic surgeon doesn't fit into my budget. I live off of handouts for goodness sake!
