The 'sefarim hakedoshim' bring that when a person is being misgaver on his yetzer hara, and look away from smeone/something assur, he is mitlabesh with an 'ohr', that shines from his neshama on earth all the way to shamayim (and tzaddikim have the koach to see that ohr). They are mevaeir: that when he is overcoming the tayva his chelek haneshama in shamayim is mitlabesh in the ohr created by the kivush hayetzer done by his neshama on earth. and davka during that time, it is a tremendous eiss ratzon....so take the oppertunity and daven! The tefilot of everyone here have an extra potensy, since unlike the tzddikim of our dor, we have the oppertunity to take advantage of this segulah every time we open our computers, newspapers, tv, etz (letza'areinu of course). let's daven for the end of the shidduch crisis. With the extent of our nissayon, even one tefilah should do the trick, don't you think?
