

Knowing

Hi All -

This just hit me and I am sure it is spoken about by everyone. Sometimes the Torah refers to sex and "knowing" and sometimes it refers to it as "lying down" or "to bring her in" or "to come on her".

This really describes the two reasons people are intimate. To develop and emotional connection or pure physical pleasure.

I did not go through the times in the Torah where there leshonos are used but I will begin doing that this Shabbos.
