

"Shmiras Ainayim" Chizuk E-Mail

Why not open a thread discussing the content of the emails?

today's story about the chusid not being let in the house of the other chusid in a frosty night telling him that in his house he is the boss, is a great story and support how to deal with our struggle.

even its very very hot outside (inside):triumph:dont let him in, he might bang on the door, just ask your self who is boss...
