The cell phone is what is getting me
Posted by Tilly and Teddy - 30 Jun 2011 16:27

Ok guys so I just signed up, I want to break free. I hate doing it, I normally end up sleeping in the next morning and don't daven properly, i.e aftet the zman and without a minyan or some crazy late minyan, 11 am onwards. Not what I want to do.

The first thing I want help with is has follows.

Just after last Succos I admitted my problems to one of my rebbe's in yeshiva and he helped a bit, and thanks to a couple of them I have installed K9 and webchaver on my laptop, so when in my bedroom I dont have such easy access. However I have a symbian operated Nokia cellphone and just use this instead, and has you know it provides access to enough material of good enough quality to allow me to access what I want to.

Does anyone know how I can block access to porn on this cellphone, because I cant get K9 or

Does anyone know how I can block access to porn on this cellphone, because I cant get K9 or webcahver on it. I'm sure blocking my access would have a huge helping effect for me. I feel that I just need the cellphone and do use it's features for work and generally so I cant get rid of it. Also getting rid of it would be embrassing from a social perspective and I feel that haskficalllly it is not the phone in the wrong but me so I dont see why I should get rid of the phone.

Please someione help me block access from my Symbian operated Nokia cellphone.

Thanks

maybe you want to edit the hosts file to filter stuff
PlatSec World (S60 3.x onwards)- go to this location C:\private\10000882\hosts
Or
Pre-PlatSec World- go to this location C:\system\data\hosts
post back

Fine we are all with you. Especially in tech support. As as your tech support team, I can say that it is unlikely that you will find a filter for symbian
I didn't know you were our tech support team ;D
But it sure sounds like you know a lot We'd be happy to have you on-board as one of our "techies" If you'd like to help, contact <a href="mailto:filter.tzvi@guardyoureyes.org">filter.tzvi@guardyoureyes.org</a> and ask him if you can join our team
