

GET THE INTERNET OUT OF THE HOUSE

Posted by albert613 - 26 Oct 2011 12:50

May Hashem Help you soon with this tsunami that you are going ...

I want to tell everyone that we encounter our everyday problems..... but why do you need to bring the internet (reshut ha rabim to reshut ha Yahid) to your house.... It is a ticking bom...one cannot be save as long as the internet is in the house.... Not even hour greats rabbis can....

Please listen to me...I had a very difficult ride Every time that my wife left the house I would jump into the compt. and go to the wrong sites.... (it is a yezer too big for must of us.....) maybe the first or second week will be difficult but after that you get accustom....

I am more than 50 years old and I will tell all the fum wives out there If you what to have a chance in this society that we are living, to have a husband and children to keep be EMET the Torah and Mitzvots..... GET THE INTERNET OUT OF THE HOUSE..... and minimize the use of it.... It destroys families like a Tsunami does.....

Albert
