

violated when I was young

Hi everybody,

Sorry for my imperfect english.

I m married and I have 4 children, I m a baal techouva an became orthodox since 15 years.

When I was a child (4 until 6 years) was raped(violated) by my sister who was older than me of 9 years. I lived with it since my childhood, but I was always perturbed by the sexuality and the pornography. I never told anything to my parents.

Is there anyone in the same case?

Thanks
