HI CHAVRA!

LET'S TAKE A CIGARETTE BREAK!?

When I grow up as a kid, my father should live till 120 in health,used to smoke about 10 cigarettes a day,or more, our whole house was smiling from my father's smoke;) . after 25 years of smoking, he finely stop, BUT WHAT HAPPENED AFTER 5 YEARS??, he confront with hard situation,and he to one cigarette puff, and there goes the puff.. he is struggling once again, (not as bad as he used to). What can I say?, I have my own struggle. his isn't as dangerous as my, my father's DR used tell him, that he should come along with him to the hospital, and see the result of a smoker, and you'll give up your cigarette, [size=4]IF WE SHOULD KNOW OUR RESULTS IN HIGH HAVEN, FOR EACH TIME WE STRUGGLED AND HOLD OUR-SELF BACK FOR JUST A SECOND,HASHAM IS VERY PROUD FROM US, "JUST KEEP GOING!
