

Emission caused by anxiety

Does anyone ever experience the leaking of zera due to extreme anxiety? Is this included in the issur of zera levatala? I know for myself that it is a complete Ones. It happens sometimes during test taking and is not accompanied by any thoughts or even kishui.

1. No

2. Definately no (dont worry about the issur of MZL)

But i would agree with gibbor sounds like a medical question

Not an issue. It's not uncommon and happens to people when playing sports. Just maybe keep an eye on how much is coming out, but it's probably not an issue physically or spiritually
