Posted by shlomo613 - 03 May 2015 20:13 Hi guys, I'm losing track of all the messages and posts that if like to revisit one day. Can someone please advise me how to do this. Also, I lost serenity's advice how to post a link into ones signature. (I figured how to put in the whole long we page address, but I don't want all that to show). Can someone please post here guidance for the record how to do this? Maybe this thread can be for technical advice re the forum. All the best.shlomo Re: Technical advice re the forum? (not a bad idea, but not what you had in mind:))

A fresh start
