Very glad to know you joined us in this... Um... Fight?

Well if you stick around with us you may find some new perspective, almost like seeing through 20/20 clean glasses for the first time. Hence the name "guard your eyes"?

Statistically most members do not continue posting on their thread, so if you're part of the stats, I'd like to say it was great getting to know you and all the best

And oh, Statistically most Sexaholics do not join gye

BUT

Statistically ALL gye members that take recovery seriously and are willing to go the extra Trucking mile with the GPS (below), succeed immensely

So... would you kindly join us for the long haul?
