Hello my name is David I am looking to stop looking at porn and masturbating. I started in my early teens maybe earlier. I'm in my 20s my parents were bal teshuva but I was raised most my life religious but fell off the derach but within the past year I been working on getting back on the path back to keeping shabbat, kosher and now this is next on my list. I am starting to get serious with a girl and want to kick this habit before things go further. Baruch hashem with his help I hope to get there.
