has anyone experience real life sexual touch besides for porn? does that make your struggle harder? Because ive gone stripclubs multiple times and massage parlors. are the strategies for that different than porn or its taken care of automatically when doing solutions with porn. also i feel that sex chats online is different than regular porn. is that so by others or its not so?

Welcome! In general, any type of lust - porn, masturbation, massage parlors etc. all have the same affect. They are different forms of the same drug - lust, which many of us use to escape

negative feelings such as anger, stress, loneliness, etc.

Working on living right will help with all of those symptoms. Our problem is not acting out, our problem is living. Acting out in it's many forms is our solution, albeit a very bad one.

Keep posting.

You can stop if you think of porn as an ugly drug that gives you an addictive high.

On the other hand if you think of porn as pretty girls you will never want to stop looking at them.

It's the way you look at things that will make the difference.
