

Introduction

My name is not Scott obviously.,

I have been struggling with Shmiras haenayim and Motze Zera Levatala for years. I have had some great years, Like when I was in Yeshiva, and some long stretches, like from Elul to after Sukkos. Regretfully I slip at some point after the Yom Tovim for different reasons. This time I found a way to get around the block I had put on my phone. So I got a new phone and I phone because I was told it's harder to get around the blocks. It took a while to get together with my TAG guy in the mean time I ended up looking at things again.

Now my phone is locked my computer is locked and I'm ready to start again
