Hi guy.

I grew up in a very tight shelter home and had so many questions that wasn't answered. I always fantasized women's nude and got into porn when I was 16. Friends in yeshiva swapped dvd and I was so exposed to it, I wanted to see more. This been going for years. Now I'm married and been hiding all my life about this. I know there's so many new frum nude pics Group and porn and women who don't work and willing to play while there husband is learning or work. I'm done with this and really messing people life up. Right now I'm 15 days clean and looking for a healthy new me !!!
