

It's no joke!!!

My dear Jewish friends,

I'm 60 years old now, I had been abusing Viagra and binging on Porn for a few years until I realized my health was rapidly deteriorating. I had been noticing dizziness, severe indigestion, shortness of breath and heart palpitations. It was true what Maimonides was saying, this will shorten your life. Well, I Disposed of my Viagra and stopped Porn Binging which helped out quite a bit but I wasn't able to give it up completely. So right before my scheduled Annual Wellness Exam I let myself have a fall. At the exam I complained of dizziness and shortness of breath, he then took an Xray and put me on an ECG, after the results came back he told me I had an irregular and slow heart rate and that I needed to wear a portable heart rate monitor for 48 hrs, he also told me that based on the upcoming results it's Possible I would have to wear a pacemaker for the rest of my life.

My friends,

I need to tell you that this is a serious wake up call from Hashem. My Yetzar Hara can't tell me anything now, I am in big trouble and have been praying hard, I also ask that you please include me in your prayers.

Your Friend,

Benny the Goy

P.S. I hope someone out there can learn something from this

dear Benny the YID! What I'm writing here I really have to work on myself so in essence I'm talking to myself, I was told this by many big mechanchim and mashpiem, that sometimes after we do something bad we bash ourselves but if what we did was bad, this is worse it's a lot easier to bash ourselves after an action because that's only natural but that's what the Yetzar hara wants us to do by putting ourselves down he can get us to do it again. I'm not exactly sure what you mean by "goy" but if it's what I think it is, it's the same Yetzer hara that made you fall that's telling you to call yourself "goy" and this way he can make us continue, we have to call

ourselves yid and a prince, no matter what a son does he is still a son and we're the children of a king so we are a prince NO MATTER WHAT!!! I've recently heard something in the name of the Lubavitcher rebbe that really blew my mind somebody asked him what's the main avodah of our generation and he answered that even if one fell in the lowest of low things to stand up and continue serving Hashem like nothing happened and not to hold himself back by saying who am I and what am I and he can be certain that he's loved by Hashem like everybody else, and in a stronger way cause he strives higher then himself and his falls. again I'm talking to myself because I personally have a very hard time applying this to my life and maybe by sharing this with you and with everyone it'll help me personally too Only berachos and b'suros Tovos for all Jews Moshiach now!
