

Therapist/manhig referral question
Posted by badaba - 22 May 2020 04:24

Hi, any advice where to turn for either a therapist or manhig, who is very experienced with technology and inappropriate material abuse, who can have an anonymous consultation with a 23 year old shidduchim age yeshivish boy regarding analysis of severity of issues, diagnosis of addiction or lack thereof, a gameplan for dealing with issues, and advice how and when to approach or avoid shidduchim in the context of these issues? Anonymity and discretion is key. Thank you. May Hashem keep us all safe, healthy, holy, pure, and growing.
