Under the text box where you type, it says attachments, press add file. Although I can't ever remember seeing videos, only pictures, and even that wasn't so often.

It might be easier to just paste a link to the video into your post, I've seen people do it often.

Hey S.A.E

It's rough, we get it. A struggle no less.

I don't think anybody will be going ballistic on you.

Maybe you should delete her contact/block her, this way you have an extra layer/reminder before you try contacting her as to why your taking a break from each other?

Yeah it's a little challenging unfortunately but I will get through this! Hmm I don't think deleting her contact will help! It wasn't because her contact was there...
